200D nylon custom printed flags are considered to be the best quality flag in the industry. The 200D nylon is perfect for indoor or outdoor use and is purchased mainly by government, towns, and cities as well as those who appreciate the extra durability this material offers. The 200D nylon is slightly heavier than the Canadian government flag standard of 70D nylon. Our nylon custom flags are finished with either grommets, rope and toggle, or a sleeve on the left hand side (right hand side for rodeo flags). The 200D nylon flag material offers superior ink penetration (or "colour fastness") and provides a 90%-95% bleed-through onto the backside of the flag. Nylon flags are known for providing a particularly vibrant print with near-perfect colour penetration.
